

# 152M-8/6S-1/4A

HAFNER

(HU) Hollanderes gyűrűs könyök csatlakozó, rövid

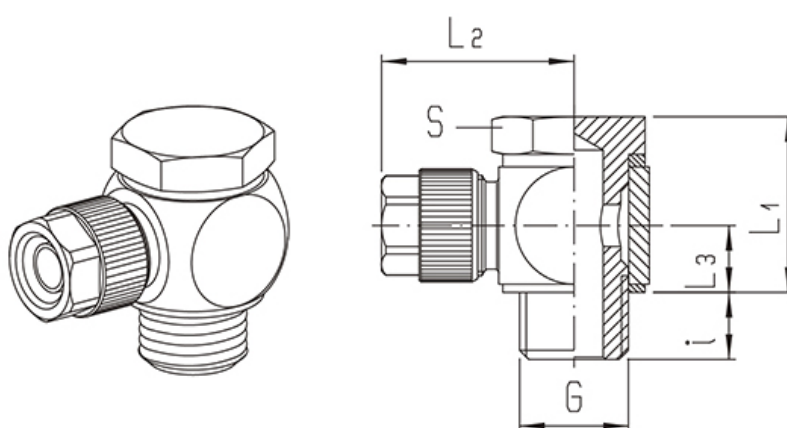

## Technische Daten

|                                |                          |
|--------------------------------|--------------------------|
| Medium                         | Druckluft, Flüssigkeiten |
| Arbeitsdruck                   | 0...25 bar               |
| Kivitel                        | menetes                  |
| Druckbereich                   | 0...25 bar               |
| Material                       | Messing vernickelt       |
| Anschlussgröße / Schnittstelle | G 1/4"                   |
| Material Dichtungen            | Aluminium                |
| Für Schlauchdurchmesser        | Ø8/6                     |
| Temperaturbereich              | -20°C...+120°C           |
| Anschlussgröße   A             | Ø8                       |
| Anschlussgröße   B             | Ø6                       |
